SAFETY DATA SHEET

This SDS complies with 29 CFR 1910.1200 (OSHA Hazard Communication Standard) and Canadian WHMIS Regulations.

IMPORTANT: Read this SDS before handling and disposing of this product.
Pass this information on to employees, customers and users of this product.

1. PRODUCT AND COMPANY IDENTIFICATION

Product Identity: 1000 PRIMER
Intended Use: Primer for water-proofing applications
Manufacturer: Protecto Wrap Company
1955 South Cherokee Street
Denver, CO 80223
Telephone: (303) 777-3001
Fax: (303) 777-9273
Website: www.protectowrap.com

Emergency Phone: ChemTel: Domestic 800-255-3924, International 813-248-0585, Mexico 800 099 0731
Prepared by: Protecto Wrap Company, 1955 S Cherokee St., Denver, CO 80223 (800) 759-9727

2. HAZARDS IDENTIFICATION

This product is a bluish-black liquid with an aromatic odor. Liquid and vapors are flammable. May cause eye and skin irritation. Inhalation of vapors or mist may cause respiratory irritation and central nervous system effects such as headache, dizziness, drowsiness, nausea and unconsciousness. Prolonged and/or repeated overexposure may cause liver, kidney, and nervous system damage.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Non-Hazardous Components >1%: Non-hazardous Polymers and Ingredients 5-20%

4. FIRST AID MEASURES

EYE: First check victim for contact lenses and remove if present. Flush victim’s eyes with large quantities of water for at least 15 minutes, holding the eyelids apart. Get medical attention if irritation persists.
SKIN: Remove contaminated clothing. Wash skin thoroughly with soap and water. If rash or irritation develop, get medical attention. Launder clothing before re-use. (Discard contaminated shoes)
INGESTION: Aspiration Hazard. DO NOT INDUCE VOMITING. If conscious, rinse mouth with water. Never give anything by mouth to an unconscious or convulsing person. If vomiting occurs spontaneously, keep head below hips to prevent aspiration into the lungs. Get immediate medical attention.
INHALATION: Immediately remove victim to fresh air. If breathing is difficult have qualified personnel administer oxygen. If breathing has stopped, administer artificial respiration. Get immediate medical attention.

5. FIRE FIGHTING MEASURES

EXTINGUISHING MEDIA: Use carbon dioxide, foam or dry chemical. Use water to cool exposed containers and structures
UNUSUAL FIRE OR EXPLOSION HAZARDS: This product is flammable and forms explosive mixtures with air. Vapors are heavier than air and will travel along surfaces to remote ignition sources and flash back. Closed containers may explode if exposed to extreme heat
SPECIAL FIRE-FIGHTING INSTRUCTIONS: Firefighters should wear positive pressure self-contained breathing apparatus and full protective clothing. Do not allow run-off from firefighting to enter drains or water courses
HAZARDOUS COMBUSTION PRODUCTS: Carbon monoxide, carbon dioxide and various hydrocarbons
EXPLOSION DATA (sensitivity to mechanical impact or static discharge):
Flammable vapors may be ignited by static spark. Electrically bond and ground containers for product transfer.

6. ACCIDENTAL RELEASE MEASURES
Remove all sources of ignition. Ventilate area with explosion proof equipment. Wear appropriate protective clothing as described in Section 8. Contain and collect using inert absorbent materials and place in appropriate containers for disposal. Report releases as required by local, state and federal authorities.

7. HANDLING AND STORAGE
HANDLING: Avoid contact with the eyes, skin and clothing. Avoid breathing vapors. Wear protective clothing and equipment as described in Section 8. Use only with adequate ventilation. Wash thoroughly with soap and water after handling. Keep containers closed when not in use. Keep product away from heat, sparks, flames and all other sources of ignition. Do not permit smoking in use or storage areas. Use with non-sparking tools and explosion proof equipment. Electrically bond and ground containers for transfer.
Do not cut, drill, grind or weld on or near containers, even empty containers. Empty containers retain product residues can be hazardous. Follow all SDS precautions when handling empty containers.
STORAGE: Store in accordance with regulations for the storage of flammable liquids. Do not store above 49°C (120°F). Store in a dry, well ventilated area away from heat, direct sunlight and all sources of ignition. Store away from oxidizers and acids.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION
EXPOSURE GUIDELINES: Refer to Section 2.
ENGINEERING CONTROLS: Use with adequate local exhaust ventilation to maintain exposures below the occupational exposure limits. Use explosion proof equipment.
RESPIRATORY PROTECTION: If the exposure limits are exceeded a NIOSH approved respirator appropriate for the form and concentration of the contaminants should be used. Selection and use of respiratory equipment must be in accordance with OSHA 1910.134 and good industrial hygiene practice.
SKIN PROTECTION: Wear impervious gloves such as Viton™ or 4H™.
EYE PROTECTION: Safety goggles and/or face shield should be worn where contact is possible. Do not wear contact lenses.
OTHER: Impervious clothing as needed to prevent contact. A safety shower and eye wash should be available in the immediate work area.

9. PHYSICAL AND CHEMICAL PROPERTIES
Appearance And Odor: Bluish-black liquid with an aromatic odor. The odor threshold for toluene is reported to be 1.6 ppm

10. STABILITY AND REACTIVITY
STABILITY: Stable under normal storage and handling conditions.
INCOMPATIBILITY: Strong acids and oxidizers.
HAZARDOUS DECOMPOSITION PRODUCTS: Carbon monoxide, carbon dioxide and various hydrocarbons.

HAZARDOUS POLYMERIZATION: Will not occur.

11. TOXICOLOGICAL INFORMATION

INGESTION: Ingestion may cause mucous membrane and gastrointestinal irritation and nervous system depression with symptoms of headache, dizziness, nausea, narcosis and unconsciousness. Aspiration into the lungs during ingestion or vomiting may cause serious lung damage which may be fatal.

INHALATION: Inhalation of vapors may cause mucous membrane and respiratory irritation and central nervous system depression with symptoms of headache, dizziness, nausea, vomiting, disorientation, stupor and unconscious. Severe overexposures may cause respiration depression and death.

EYE: Contact may cause irritation.

SKIN: Repeated or prolonged contact may cause irritation, drying and defatting. The liquid may be absorbed through the skin causing effects similar to those described under inhalation and ingestion.

SENSITIZATION: This product is not expected to cause sensitization.

CHRONIC/CARCINOGENICITY: Prolonged occupational overexposure may cause cardiac sensitization, effects on hearing and damage to the nervous system, blood system, liver and kidneys. Prolonged intentional toluene abuse may damage many organ systems including: central and peripheral nervous systems, vision, hearing, liver, kidneys, heart and blood. Such abuse has been associated with brain damage characterized by disturbances in gait, personality changes and loss of memory. Toluene has been found to cause adverse reproductive effects and/or birth defects in studies with laboratory animals. No ingredient in this product present at greater than 0.1% is listed as a carcinogen by NTP, IARC, or OSHA.

MUTAGENICITY: Toluene has tested positive for mutagenicity in some test systems.

SYNERGISTIC PRODUCTS: None specifically known. Products containing chemicals that effect the same target organ systems would be expected to have synergistic effects; for example other solvent containing products.

MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE: Employees with pre-existing skin, liver and kidney disease may be at increased risk from exposure.

ACUTE TOXICITY VALUES:
- Toluene Oral Rat LD50 - 636 mg/kg
- Inhalation Rat LC50 - 49 g/m3/4 hr.
- Skin Rabbit LD50 – 14100 µL/kg
- Rosin, polymer with phenol: No data available

12. ECOLOGICAL INFORMATION (non mandatory)

No ecotoxicity data is available for this product at this time.

13. DISPOSAL CONSIDERATIONS (non mandatory)

Dispose in accordance with local, state and federal environmental regulations.

14. TRANSPORT INFORMATION (non mandatory)

DOT HAZARDOUS MATERIALS DESCRIPTION

Proper Shipping Name: Toluene Solution
Hazard Class/Packing Group: Group: 3, PG II
UN Number: UN1294
Labels Required: Flammable Liquid

Note: If >1,111 pounds of this product in a single container, RQ requirements apply.

15. REGULATORY INFORMATION (non mandatory)

CERCLA / SUPERFUND: This product has a Reportable Quantity (RQ) of 1,111 lbs. based on the RQ for Toluene of 1,000 lbs. Releases above the RQ must be reported to the National Response Center. Many states have more stringent release reporting requirements. Report spills required under federal, state and local regulations.

SARA HAZARD CATEGORY (311/312): Acute Health, Chronic Health, Fire Hazard

SARA 313 INFORMATION: This product contains the following chemicals subject to Annual Release Reporting Requirements Under SARA Title III, Section 313 (40 CFR 372):
- Toluene 108-88-3 80-90%
EPA TSCA INVENTORY: All of the ingredients in this product are listed on the EPA TSCA Inventory.

CALIFORNIA PROPOSITION 65:
- This product contains the following chemicals known to the State of California to cause cancer: Benzene <0.1%
- This product contains the following chemicals known to the State of California to cause developmental toxicity (birth defects): Toluene 80-90%, Benzene <0.1%
- This product contains the following chemicals known to the State of California to cause male reproductive toxicity: Benzene <0.1%

CANADA:
- This product has been classified under the CPR and this SDS discloses information elements required by the CPR.

CANADIAN WHMIS: CLASSIFICATION: Class B Division 2 (Flammable Liquid); Class D Division 2 Subdivision A (Very Toxic Material Causing other Toxic Effects)

CANADIAN CEPA: All the components of this product are listed on the Canadian DSL

16. OTHER INFORMATION

SDS Date of Preparation: 09_2019
NFPA RATING: Health = 2  Fire = 3  Reactivity = 0
HMIS RATING: Health = 2  Fire = 3  Reactivity = 0
