SAFETY DATA SHEET
This SDS complies with 29 CFR 1910.1200 (OSHA Hazard Communication Standard) and Canadian WHMIS Regulations.
IMPORTANT: Read this SDS before handling and disposing of this product.
Pass this information on to employees, customers, and users of this product.

1. PRODUCT AND COMPANY IDENTIFICATION
Product Identity: Jiffy Seal Ice & Water Guard HT Butyl (0617_2020)
Intended Use: Construction Waterproofing Material
Manufacturer: Protecto Wrap Company
1955 South Cherokee Street
Denver, CO 80223
Telephone: (303) 777-3001
Fax: (303) 777-9273
Internet: www.protectowrap.com
Emergency Phone: ChemTel: Domestic 800-255-3924, International 813-248-0585, Mexico 800-099-0731
Prepared by: Protecto Wrap Company, 1955 S Cherokee St., Denver, CO 80223 (800) 759-9727

2. HAZARDS IDENTIFICATION
This product is a black, opaque solid with a polymer sheeting on one side. It has a slight odor. Product is not flammable but will burn under fire conditions. However, it is a manufactured article as defined in 29 CFR 1200(c) and not considered to be hazardous when used/applied per manufacturer’s guidelines.

4. FIRST AID MEASURES
EYE: First check victim for contact lenses and remove if present. Flush victim's eyes with large quantities of water, holding the eyelids apart. Get medical attention if irritation persists.
SKIN: Remove contaminated clothing and launder before re-use. (Discard contaminated shoes). Wash skin thoroughly with soap and water. If rash or irritation develop, get medical attention.
INGESTION: If conscious, rinse mouth with water. Never give anything by mouth to an unconscious or convulsing person. DO NOT induce vomiting unless directed by medical personnel. Get medical attention.
INHALATION: If symptoms of exposure develop, remove victim to fresh air. If breathing is difficult or symptoms persist, get immediate medical attention.

5. FIRE FIGHTING MEASURES
Extinguishing Media: Use foam or dry chemical to extinguish fire; fog nozzles if water is used. Water streams may cause violent eruptions spreading burning product. Use water to cool fire exposed containers and structures.
Unusual Fire or Explosion Hazards: Product will burn if exposed to elevated temperatures or fire. Hot Asphalt/Butyl may ignite flammable mixtures on contact. Toxic vapors including hydrogen sulfide may be released upon combustion.
Special Fire-Fighting Instructions: Firefighters should wear positive pressure self-contained breathing apparatus and full protective clothing. Do not allow run-off from firefighting to enter drains or water courses.
Hazardous Combustion Products: Carbon monoxide, sulfur oxides, hydrogen sulfide, acrolein, aldehydes, benzaldehydes, ketones, and unidentified organic compounds may be formed on combustion.
Explosion Data (sensitivity to mechanical impact or static discharge) None known.
6. ACCIDENTAL RELEASE MEASURES
Wear appropriate protective clothing as described in Section 8. Pick up and place into an appropriate container for disposal. If product becomes molten allow product to cool before picking or scraping up. Report releases as required by local state and federal authorities.

7. HANDLING AND STORAGE
HANDLING: Avoid contact with the eyes and skin. This product is not intended to be heated. If product is heated provide adequate ventilation and avoid breathing vapors and mists. Wash with soap and water after use. Do not cut, drill, grind, or weld on or near containers, even empty containers. Empty containers retain product residues can be hazardous. Follow all SDS precautions when handling empty containers.

STORAGE: Store in a cool, well ventilated area away from excessive heat and sources of ignition.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION
EXPOSURE GUIDELINES: Refer to Section 3
ENGINEERING CONTROLS: General ventilation should be adequate for normal use. For operations where the TLV (Threshold Limit Value) may be exceeded, mechanical ventilation such as local exhaust may be needed to maintain exposure levels below applicable limits.

RESPIRATORY PROTECTION: None needed under ambient conditions. For situations where the product is heated, hydrogen sulfide may be released. In such conditions, a NIOSH approved positive pressure self-contained breathing apparatus is recommended. Gas masks or other air purifying respirators are not recommended for hydrogen sulfide due to its poor odor warning properties. Equipment selection depends on containment type and concentration, select in accordance with 29 CFR 1910.134 and good industrial hygiene practice. For firefighting, use self-contained breathing apparatus.

SKIN PROTECTION: Avoid skin contact. Wear appropriate impervious gloves.

EYE PROTECTION: Safety glasses or goggles should be worn where contact is possible.

OTHER: Wear long sleeved shirt and long pants to avoid skin contact. Wash thoroughly after handling.

10. STABILITY AND REACTIVITY
STABILITY: Stable under normal storage and handling conditions.
INCOMPATIBILITY: Strong oxidizers. Avoid water if product is molten.
HAZARDOUS DECOMPOSITION PRODUCTS: Carbon monoxide, sulfur oxides, hydrogen sulfide, acrolein, aldehydes, benzaldehydes, ketones, and unidentified organic compounds.
HAZARDOUS POLYMERIZATION: Will not occur.

11. TOXICOLOGICAL INFORMATION
INGESTION: No adverse effects are expected from normal use. Swallowing may cause gastrointestinal irritation, nausea, vomiting and diarrhea.
INHALATION: No adverse effects expected at ambient temperatures. Vapors released from heating product may cause respiratory irritation. At elevated temperatures hydrogen sulfide may be released. The release of hydrogen sulfide gas in various concentrations may cause irritation of the eyes and respiratory tract, headache, dizziness, nausea, and drowsiness. Exposure to high concentrations of hydrogen sulfide can cause respiratory arrest and death.
EYE: May cause irritation with redness, tearing and blurred vision. Contact with product at elevated temperatures may cause thermal burns.

SKIN: May cause irritation, defatting of the skin and dermatitis. Contact with product at elevated temperatures may cause thermal burns.

SENSITIZATION: This product is not expected to cause sensitization.

CHRONIC/CARCINOGENICITY: No adverse effects expected at ambient temperatures. Prolonged inhalation of Asphalt/Butyl smoke has been shown to cause bronchitis, pneumonitis, and abscess formation in laboratory animals. Fume condensates have been shown to cause tumorigenic responses when repeatedly applied to the skin of laboratory animals. Prolonged inhalation of talc dust (Butyl products) may cause lung damage (pulmonary fibrosis), however, the talc (Butyl products) in this product is bound in a polymer matrix and dust exposure would not be expected. Asphalt/Butyl (petroleum, bitumen) is listed by IARC as “Possibly Carcinogenic to Humans”, Group 2B.

MUTAGENICITY: No adverse effects from available data.

SYNERGISTIC PRODUCTS: None specifically known.

MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE: Employees with pre-existing skin and respiratory disorders may be at increased risk from exposure.

ACUTE TOXICITY VALUES: No toxicity data available for components

12. ECOLOGICAL INFORMATION (non mandatory)
No ecotoxicity data is available for this product at this time.

13. DISPOSAL CONSIDERATIONS (non mandatory)
Dispose in accordance with local, state, and federal environmental regulations.

14. TRANSPORT INFORMATION (non mandatory)

DOT HAZARDOUS MATERIALS DESCRIPTION
Proper Shipping Name: Not Regulated Hazard Class/Packing Group: None
UN Number: None Labels Required: None
North American Emergency Response Guidebook Number None

15. REGULATORY INFORMATION (non mandatory)

CERCLA / SUPERFUND This product is not subject to CERCLA reporting requirements.
SARA Hazard Category (311/312) Acute Health, Chronic Health
SARA 313 This product contains the following chemicals subject to Annual Release Reporting Requirements Information Under SARA Title III, Section 313 (40 CFR 372): None
EPA TSCA Inventory All of the ingredients in this product are listed on the EPA TSCA Inventory
CALIFORNIA This product contains the following chemicals known to the State of California Proposition 65 to cause cancer, developmental (birth defects), or reproductive toxicity None
Canada This product has been classified under the CPR. This SDS discloses information elements required by the CPR.
Canadian WHMIS Classification Not a controlled product (manufactured article)
Canadian CEPA All the components of this product are listed on the Canadian DSL
Australian NICNAS This chemical can be...imported...for commercial purposes
