

WHISPER MAT® HW

Peel & Stick Sound Control & Moisture Resistant Membrane for Engineered Hardwood & Laminate Flooring

Whisper Mat HW is a peel & stick non-permeable sheet membrane, which reduces impact and airborne sound transmissions and is a moisture/vapor barrier. Designed for use with engineered wood plank and laminate floors. Used where sound-control is required, specified or desired.

Whisper Mat HW combines sound absorption properties with moisture resistant properties making this an excellent system to enhance flooring installation performance.
