

# JIFFY SEAL® 140/60

## Peel & Stick Waterproofing Membrane

2-1/2"  
ZIP STRIP

*Remove release liner on outer face of the JS 140/60 to allow drainage mat to be adhered without the need for fasteners penetrating the waterproofing.*

Unique double sided adhesive membrane. "Zip Strip" serrations on both edges of release liner allow for adhesive-to-adhesive lap bond between adjacent sheets for instant watertight bonding at seams.

- Jiffy Seal 140/60 is a 60 mil, polyester internally reinforced, peel and stick rubberized asphalt adhesive waterproofing membrane
- Double sided adhesive membrane allows drainage mat or protection board to be attached to outer face without the need for fasteners
- The only adhesive to adhesive seam overlap in the industry, provides instant cohesive bond at time of installation
- Can be installed horizontally or vertically and covered or backfilled immediately
- IAPMO ER 334 Certified
- Refer to [www.protectowrap.com](http://www.protectowrap.com) for installation instructions, details and technical data sheet

**10 Year Limited  
Warranty**

### FEATURES & BENEFITS

Waterproofing membrane ideal for:

- Foundation walls/below grade
- Split slabs
- Tunnels/earth shelters/vaults
- Plaza decks/parking decks
- Retaining walls/planters
- 30 UV day exposure rating
- 60 mil, fully adhered system
- Easy peel and stick application
- Hydrostatic pressure resistance 366 (feet of water)
