

PROTECTO LM Liquid Membrane

**10 Year Limited
Warranty**

Available in 1 and 5
gallon containers

- Protecto LM is a thin, flexible, load bearing waterproofing system
- Elastomeric latex compound used with reinforcing fabric forms a seamless waterproof barrier for detailing Protecto Wrap AFM-WM[®] (interior) and Protecto Deck[™] (exterior) waterproofing membranes for thin-set tile installations
- Can be used with Whisper Mat[®] CS under thin-set ceramic and stone tile installations where waterproofing and sound control are required
- Ideal for use on exterior application and in all interior wet areas such as bathrooms, showers, spas and steam rooms, etc.
- Adheres to concrete, concrete block and masonry, cement mortar beds, cement backer units, existing surfaces of ceramic tile or terrazzo and exterior-grade plywood
- Exceeds ANSI A118.10 and ANSI A118.12 standards
- Easy to apply – just roll or brush on
- Fast curing – color changes to black when cured
- Cleans up with water while still wet
- Low odor and solvent free
- PROTECT FROM FREEZING, store between 40°F (4°C) to 120°F (49°C) in original unopened containers out of weather and direct sunlight
