

PROTECTO FORM FLASHTM MAX

Ultra Flexible Waterproof Flashing Tape

STRETCHES

CONFORMS & SEALS

WATERTIGHT

**10 Year Limited
Warranty**

- Form Flash MAX is a peel & stick, flexible EPDM roof penetration flashing tape that stretches, conforms and seals around penetrations in roofs and walls
- Seals penetrations in roof assemblies
- Compatible with and adheres to TPO, PVC and EPDM
- Has an aggressive butyl based adhesive that adheres to plywood, OSB, PVC, steel, aluminum and plastic
- The UV resistant uncured EPDM facer conforms in all directions allowing it to stretch around penetrations while the butyl adhesive remains flexible in extreme hot and cold temperatures
- Seals out water
- Stops heating and air conditioning loss around penetrations
- Available in 4", 6", 9" x 15' and 4", 6", 9" x 50' rolls
- Seals around properly installed fasteners
- Forms a positive air/vapor barrier
- Forms an insect and rodent barrier around penetrations
- Can be painted – recommend spray paint
- Compatible with most building products and EPDM
- Excellent flexibility and extensibility in all directions
- Perfect for sealing around: rough opening window corners, electrical power mast, pipe penetrations, roof ventilation, plumbing soil penetrations, sky lights, roof to chimneys, roof to wall, patching valleys, gutters and shingles, CMU and poured in place concrete
- Replaces Protecto Flex and Form Flash 2

Conformable around irregular shapes and rated for full exposure to UV
